JIM FLYNN WILL BE GLAD TO TAKE ON HEAVYWEIGHTS

Pueblo Fireman Pleased to Accommodate Any Boxers Who Wish to Go Few Rounds With Him Saturday Night.

After he has boxed four rounds with Al Williams of Cleveland, Jim Flynn will take on any heavyweights in the audience who may wish to try out with him. Flynn assures those who may have a wish to try a round or two with him, that he will be easy and will not deliver any knock out blow.

Preliminary to the Flynn-Williams bout, Kid Young of Dallas, Tex., and the Cheyenne Kid will go about eight rounds, and Clyde Day of Belton, and Soldier Hunt, of Albuquerque, are scheduled to go ten rounds. It is expected these two latter bouts will prove interesting arguments.

GOOD RECORDS AT BLIND SCHOOL

Pupils at Alamogordo Take Part in Seventh Annual National Athletic Contest.

Alamogordo, N. M., May 20.—The seventh annual athletic contest in which the New Mexico Institute for the Blind has participated was held Saturday morning on the campus, commencing at 8:30. This is the third year that New Mexico has held membership in the National Athletic Association of Schools for the Blind. In the season of 1909-1910 New Mexico was champion.

Your Straw Hat is Here

The young fellows are wearing broad-brimmed, low-crowned, fancy-woven effects—but we also have the styles that will appeal to more conservative men.

No matter what your taste may be in a straw, we can please you.

APPRENTICES WIN FIRST GAME OF TOURNAMENT

Santa Fe Shop Lads Put the Strongest Kind of an Aggression in Field Yesterday; Contest Is a Fast One.

The Apprentices clouted the ball skillfully and regularly and won without difficulty yesterday afternoon from the Happy God-Locks by the score of 10 to 2. The game was the first of the tournament scheduled for the Firemen's Union meeting. For a strictly amateur game it was a corking good one, played in an hour and twenty minutes. The Haps copped two scores in the first inning, Gladding and Hutchinson scoring on well placed hits. After the initial frame the Haps got away with the game. The Apprentices got a head start in the first round. Coen profited by Higgins' error at short. Burns got on because of Murphy's error. Chavez was safe and Coen out at third on a fielder's choice. Gonzales hit for two, scoring Chavez. Salazar made first on Hutchinson's error and was sent around by Hollister's double. O'Bannon hit clean in the second and was scored by Coen. In the third the Apprentices got one more run, Salazar hitting, stealing second and scoring on Hollister's single. Tierney profited after the fifth by Platero's fourth and fifth in good shape, but was relieved after the fifth by Platero, who had a bad inning on the jump off. Five runs being gathered by the shop boys. Burns, Chavez, Gonzales and O'Bannon hit when it came to runs, bringing with them Coen who made first on a scratch. Five runs being made in the sixth, the Indians steadied down and no runs were made in the seventh and eighth, the Apprentices passing up their last try at the bat in the ninth, having the game clinched.

SADDLE HORSES TO BE DEVELOPED ON STATION FARM

Highly Important Breeding Work to Be Conducted on Large Tract Northeast of Las Cruces.

The large tract of land recently set aside by proclamation of President Taft for the use of the New Mexico Experiment station in co-operation with the United States department of agriculture for experiments in horse breeding and range improvement is located about twenty miles northeast of Las Cruces, and extends from the foot of the eastern slope of the Dona Ana mountains to the top of the San Andres range, covering an area of about twenty by thirty miles in extent. This will all be enclosed in different tracts by substantial fences which will give absolute control, especially of that portion of the range upon which the range improvement experiments are to be conducted. The detailed plans for this work have not yet been prepared, but the experiment will include all the modern ideas of range improvement. It will also take into account the extent to which a range may be grazed without material injury.

The proposed horse breeding experiment will be of very great importance to New Mexico as a whole. The object of this work is to establish practically a new breed of western horses adapted to general saddle purposes, to army mounts, and to the grazing districts of the semi-arid region. In connection with this work as planned, it will be necessary to investigate the principles of breeding horses in co-operation with ranchmen, a limited number of whom from different localities in the state, will be taken into the breeding camp, and be supplied with foundation breeding stock under certain conditions.

The work of this experiment will be controlled by a council of three, representing the New Mexico experiment station, the United States department of agriculture and the ranchmen who may take part in the co-operation. The central breeding farm and headquarters will be located on the land recently set aside by the president. But the business offices will be located on the grounds of the agricultural college in connection with the experiment station. The locations of the secondary stations have not yet been decided, but they will be so chosen as to represent the most promising horse breeding districts of the whole state. It is designed that the council secure from among the hardy horses of New Mexico and surrounding states the most expert judges in this line will be called upon for assistance, including the army officer, who is the chief purchasing agent of United States cavalry horses. The initial appropriation for congress for this experiment will be \$30,000 and to this the present state legislature of New Mexico is expected to add a small amount.

Jeff's Head Is Hot.
Now is the time to select your fishing tackle, as the season opens May 15th. Harry T. Johnson has the best stock of tackle in the state.
Extra choice first cutting alfalfa, green and bright, carefully selected, by the bale or ton. E. W. Fee, Phone 16.
Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation, deranges the stomach, causes indigestion, turns the stomach, causes indigestion.

MAGDALENA ROUTE NOW CLEAR SAYS MR. BECKER

Canyon City Party Makes Trip via Springerville Successfully and Many Improvements Are Being Made.

The following letter received by the mayor from Gustave Becker of Springerville, Ark., regarding the Canyon City auto party which recently passed through here needs no further explanation:
Springerville, Ark., May 16th, 1912.
Albuquerque, N. M.
Dear Mr. Becker:
Your favor with enclosure of copy of letter from Mr. Baker, to hand. I am glad that the Bakers found the route so interesting, and are pleased with the roads.
They did not like to cross Chevelin Fork, like the other car did, but ran back to Holbrook and shipped to Winslow, 30 miles. Since then there has been a rock crossing put in, and the water is generally not over 12 to 15 inches deep. This is a temporary affair, however. A bridge will be built this summer. The bridge over Black River, on the road to the Roosevelt dam, will be completed in a few weeks, and the road will be open both ways.
We will have no camps, no washing nor rivers to cross, except on bridges. The sign board proposition is the main thing to be done yet, and we will put up temporary signs right away, and put on the metal signs which the Transcontinental Touring club will furnish, later on.
I think that in a month from now, tourists will find very little to complain about.
Therefore you can send them this way with a clear conscience, that they cannot be sent over any better route in this country.
With kindest regards, I remain
Yours truly,
GUSTAVE BECKER.
Times set for nearly nothing. W. J. Hyde, 405 W. Cooper.
